RESOURCE 2.10

Core Experience & User Flows Worksheet

STAGE 9 | EXPERIENCE

PURPOSE

Describe the end-to-end experience that lets a primary user accomplish a Core Job and reach a meaningful outcome.

Primary user and Core Job supported

Entry point and trigger for the flow

User's intended outcome / definition of success

Core flow: step-by-step user actions and system responses

First moment of value: when does the user get a useful result?

Information or decisions needed at each step

Core Experience & User Flows Worksheet

STAGE 9 | EXPERIENCE

CONTINUED · Record evidence, assumptions, derived conclusions, and open questions separately.

Important states: empty, loading, success, failure, partial

Errors, exceptions, interruptions, and recovery paths

Feedback, confirmations, and system responses

Accessibility, cognitive load, and user constraints

What is deliberately excluded from the first experience?

How will you test whether users can complete the flow?
