MVPCompanion

RESOURCE 2.15

Technical Boundaries Worksheet

STAGE 14 | TECHNICAL BOUNDARIES

PURPOSE

Make material technical constraints and risks visible without prematurely over-specifying the implementation.

Product capabilities and user outcomes the technology must support

Known platform, device, browser, or deployment constraints

External services, APIs, integrations, and dependencies

Data storage, access, security, privacy, and retention needs

Performance, reliability, availability, or scale expectations

Technical assumptions and evidence (E/H/D/O)

Technical Boundaries Worksheet

STAGE 14 | TECHNICAL BOUNDARIES

CONTINUED · Record evidence, assumptions, derived conclusions, and open questions separately.

Major technical options considered and trade-offs

Risks, failure modes, and fallback approaches

Build vs. buy / reuse decisions and rationale

Constraints that materially affect MVP scope or user experience

What needs a spike, prototype, or expert review?

Open decisions, owner, and decision deadline
