FROM IDEA TO MVP

Problem Definition Worksheet

Stage 2 · Problem

WORKSHEET GUIDANCE

Define a problem independently of the proposed solution. Separate observed evidence from assumptions.

Who experiences the problem? Be specific.

What are they trying to accomplish?

When / in what context does the problem occur?

How often does it occur, and how severe is it?

Current workflow, workaround, or alternative

What is difficult, slow, costly, risky, fragmented, or frustrating?

Consequences if the problem remains unsolved

Problem Definition Worksheet

Stage 2 · Problem

WORKSHEET GUIDANCE

Define a problem independently of the proposed solution. Separate observed evidence from assumptions.

CONTINUED · E = Evidence | H = Hypothesis | D = Derived | O = Open question

Problem statement (without naming your solution)

Evidence supporting the problem (E): source, observation, date

Hypotheses still to test (H)

Open questions (O) and confidence level

Next test: who/what/how will you investigate?

Problem gate: what evidence would justify proceeding?
