Core Jobs Prioritization Worksheet

Stage 7 · Core Jobs

WORKSHEET GUIDANCE

Identify 3–7 important jobs users need to accomplish. A job describes an outcome, not a UI element.

Primary user and situation

Core Job 1 — Trigger / situation

Core Job 1 — User action / progress sought

Core Job 1 — Desired outcome / evidence of completion

Core Job 1 — Importance (1–5) and rationale

Core Job 2 — Trigger / action / desired outcome

Core Job 3 — Trigger / action / desired outcome

Core Jobs Prioritization Worksheet

Stage 7 · Core Jobs

WORKSHEET GUIDANCE

Identify 3–7 important jobs users need to accomplish. A job describes an outcome, not a UI element.

CONTINUED · E = Evidence | H = Hypothesis | D = Derived | O = Open question

Additional jobs (if needed; keep total core jobs to 3–7)

Minimum information needed to accomplish the jobs

Decision or result produced by each job

Jobs that are interesting but not essential yet

Prioritized Core Jobs (ranked) and why

How does each job connect to the value proposition?
