MVPCompanion

RESOURCE 3.4

Stage Gate Review Sheet

A reusable review template for any of the 15 MVPCompanion stages.

1. Stage and review context

PROJECT / APP

REVIEW DATE

STAGE NUMBER

Select...

REVIEWER / OWNER

Purpose of this stage in the current product context

What decision must this stage enable?

2. Outputs and supporting basis

Key stage outputs / artifacts produced

Evidence (E), hypotheses (H), derived conclusions (D), open questions (O)

Links to prior-stage decisions and traceability

Gate Criteria & Open Issues

Review whether the stage output is clear, supported, and usable by downstream stages.

3. Review criteria

- [ ] Stage purpose and intended outcome are clear.
- [ ] Required outputs are present and understandable.
- [ ] Evidence and assumptions are distinguished; uncertainty is visible.
- [ ] Decisions are consistent with relevant prior-stage outputs.
- [ ] Downstream stages can use these outputs without guessing.
- [ ] Open questions and dependencies have owners or next actions.

Critical gaps or unresolved contradictions

Risks if the team proceeds without resolving them

Actions required before the gate can pass (owner / due date)

Gate Decision & Handoff

Record the decision, any conditions, and the implications for the next stage.

4. Gate decision

Decision Select...

Decision date

Rationale for the decision

Conditions / actions, owners, and deadlines

What is handed over to the next stage?

What must remain visible as an open question (O)?

5. Sign-off

Stage owner
